

The INNOVATORS' Tea Party

We link successful female scientists, engineers and innovators with high school students to empower the next generation of girls to pursue careers in STEM.

2017 in review

128 women in STEM

mentoring 225 high school students

from 44 WA schools

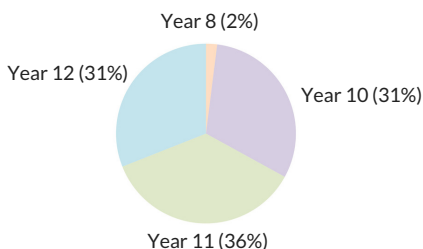

8 speed-networking sessions during National Science Week

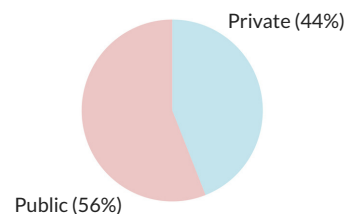

together we drank 964 cups of tea ... and coffee

Attendee year level:

Attendee school type:

Students came from schools spanning 202km

Some students attended 5 x 1.5hr speed-networking sessions

88% of students would like to attend again

96% of mentors would like to volunteer again

Our MENTORS were INCREDIBLE. They described their jobs as:
